ABHISHEK KUMAR SRIVASTAVA

React Native Developer

Baner, Pune, India | +91-8004732941 | sriabhi12345@gmail.com

SUMMARY

Results-driven CDAC Certified React Native Developer with 3+ years of experience delivering high-performance mobile applications for Android and iOS platforms. Expert in building scalable mobile architectures, cross-platform UI engineering, and integrating real-time GPS tracking. Proven track record in optimizing mobile application performance, reducing bundle sizes, and leading end-to-end app development from architecture to store deployment.

TECHNICAL SKILLS

Core Mobile & Languages: React Native, JavaScript (ES6+), TypeScript

State & API Integration: Redux Toolkit, React Query, Context API, REST APIs, GraphQL, Firebase

Mobile Native & SDKs: Google Maps API, GPS Location Services, Camera Integration, Razorpay Gateway, Push Notifications (FCM)

Testing & Tooling: Xcode, Android Studio, Jest, React Native Testing Library, Git, CI/CD

AI & Developer Tools: Cursor AI, ChatGPT, Google Gemini, Claude AI

Core Competencies: Cross-Platform Mobile Development (iOS & Android), Native Bridge & JSI Optimization, App Store & Play Store Releases, Clean Modular Architecture, Offline Caching, State Management, Real-Time GPS

EXPERIENCE

React Native Developer **July 2023 – Present**

Sphinx Solution Pvt. Ltd. *Pune, India*

- Engineered high-quality cross-platform mobile apps using React Native, reducing launch bundle size and delivering smooth, responsive mobile user interfaces.
- Architected robust state management systems using Redux Toolkit and Context API to manage complex offline data caching.
- Integrated GraphQL endpoints, REST APIs, Firebase services, and Razorpay payment SDKs for seamless transaction handling.
- Implemented background GPS location tracking and dynamic mapping using Google Maps API for real-time app notifications.
- Managed build distribution and deployment pipelines across Android Studio and Xcode environments.

PROJECTS

Sarwa – AI-Powered Quick Commerce App (Customer App)

Tech Stack: React Native, TypeScript, Firebase FCM, REST APIs, Razorpay, Google Maps SDK, Redux Toolkit

- Built an all-in-one AI-powered quick commerce cross-platform app for 5,000+ items with live Google Maps courier tracking.
- Implemented secure checkout workflows with Razorpay, smart AI recommendations, and background FCM push notifications.

Sarwa Vendor App – Merchant & Inventory Management App

Tech Stack: React Native, TypeScript, Redux Toolkit, Real-time Sockets, Firebase FCM, REST APIs, Analytics

- Developed a merchant enterprise React Native mobile app empowering local vendors to manage orders, catalog, and store operations.
- Engineered real-time order dispatch updates, live stock inventory management, staff role permissions, and sales analytics charts.

Sharehood – Hyper-Local Community & Discovery App (Android)

Tech Stack: React Native, TypeScript, Google Maps SDK, Geolocation Services, Redux Toolkit, Firebase FCM, REST APIs

- Engineered a hyper-local mobile marketplace connecting residents with neighborhood merchants, services, and live item availability.
- Implemented Google Maps SDK with dynamic GPS radius discovery, real-time store catalogs, and FCM push notifications.

No Stress Impress – Dental Care & Impression Guide App

Tech Stack: React Native, TypeScript, Native Camera API, Video Player SDK, REST APIs, Image Compression, Redux Toolkit

- Developed a cross-platform React Native healthcare mobile app guiding users through at-home dental impression workflows.
- Built custom native camera capture modules, interactive video player guides, and multipart cloud upload pipelines.
- Integrated client-side image compression, reducing upload payload sizes and improving server processing times by 35%.

Multiply – Creator Engagement App

Tech Stack: React Native, GraphQL, Firebase, REST APIs, React Query

- Engineered a mobile community platform allowing creators to interact with followers, publish updates, and earn rewards.
- Integrated low-latency GraphQL subscriptions and Firebase to handle thousands of real-time interactions daily.

EDUCATION & CERTIFICATION

PG-Diploma in Mobile Computing (PG-DMC), CDAC Certified **2023**
Sunbeam Institute (C-DAC ACTS)

B.Tech, Electronics & Communication Engineering **2017**
PSIT Kanpur

Intermediate (12th) – BIC Shahmuhammadpur Candrawar, Ballia **2013**

High School (10th) – Gyan Peethika Jagdishpur, Ballia **2010**
