PROFILE SUMMARY

Results-driven React JS Frontend Developer with 3+ years of experience delivering high-performance, responsive web applications and Single Page Applications (SPAs). Expert in building scalable frontend architectures, translating complex UI/UX designs into pixel-perfect code, and integrating robust APIs. Proven track record in optimizing Core Web Vitals, reducing page load times by up to 30%, and leading end-to-end web development utilizing the modern React ecosystem.

TECHNICAL SKILLS

Core Frontend: React JS, JavaScript (ES6+), TypeScript, HTML5, CSS3, Tailwind CSS, Bootstrap

State & API Management: Redux Toolkit, React Query, Context API, REST APIs, GraphQL, Firebase

Web Tech & Integrations: Progressive Web Apps (PWA), Browser Geolocation API, WebRTC (Camera API), Razorpay Web Integration, Google Maps Web API

Testing & Tooling: Vite, Webpack, Jest, React Testing Library, Git, GitHub Actions, CI/CD, Vercel

Additional & AI Tools: React Native (Mobile), Cursor AI, ChatGPT, Google Gemini, Claude AI

WORK EXPERIENCE

React JS Developer — Sphinx Solution Pvt. Ltd.

July 2023 – Present | Pune, India

- Engineered high-quality, responsive web applications and complex admin dashboards using React JS and Tailwind CSS, improving user engagement metrics by 20%.
- Architected robust state management systems utilizing Redux Toolkit and Context API to manage complex client-side data caching.
- Integrated GraphQL endpoints, REST APIs, and Firebase services for seamless, lag-free asynchronous data fetching and real-time updates.
- Optimized DOM rendering and Core Web Vitals (LCP, CLS, FID), reducing initial page load time by 30% and improving overall Lighthouse scores.
- Implemented dynamic mapping and real-time tracking features into web portals using the Google Maps JavaScript API.

FEATURED WEB PROJECTS

Sarwa - Delivery & Shopping Web Platform & Admin Dashboard

- Developed a comprehensive web application and admin ecosystem handling real-time order processing, product management, and user analytics.
- Integrated Google Maps Web API for precise address selection and Razorpay JS for secure web-based checkouts.
- Tech Stack:** React JS, Redux Toolkit, Firebase, REST APIs, Google Maps API, Razorpay, Tailwind CSS

No Stress Impress - Dental Care Web Portal

- Built a responsive web portal guiding users through dental impression workflows via interactive video tutorials.
- Integrated browser-based WebRTC camera APIs and implemented client-side image compression, improving upload speeds by 35%.
- Tech Stack:** React JS, REST APIs, Browser Media/Camera APIs, Image Upload, Firebase, Tailwind CSS

Multiply - Creator Engagement Web App

- Engineered a scalable web-based social platform allowing creators to interact with followers, publish updates, and track analytics.
- Utilized GraphQL subscriptions and React Query to handle thousands of real-time interactions with optimistic UI updates.
- Tech Stack:** React JS, GraphQL, Firebase, REST APIs, React Query

Sharehood - Local Discovery Dashboard

- Created a hyper-local web dashboard utilizing browser Geolocation APIs to connect users with nearby vendors and services.
- Implemented infinite scrolling and virtualized lists to maintain smooth performance when rendering large data sets.
- Tech Stack:** React JS, Google Maps Web API, Geolocation API, Firebase, Tailwind CSS

EDUCATION

PG-Diploma in Mobile Computing | Sunbeam Institute | 2023

B.Tech in Electronics & Communication Engineering | PSIT Kanpur | 2017

Intermediate (12th) | BIC Shahmuhammadpur Candrawar, Ballia | 2013

High School (10th) | Gyan Peethika Jagdishpur, Ballia | 2010

KEY STRENGTHS

Single Page Application (SPA) Architecture • Responsive Web Design • Web Performance Optimization • Reusable Component Engineering • Agile Team Collaboration
